PROFESSIONAL SUMMARY

Data Analyst with around 2+ years of experience in Power BI, Excel, SQL and Python. Experienced in building interactive dashboards, developing DAX measures, analyzing business data, and providing actionable insights to support data-driven decision-making

TECHNICAL SKILLS

Languages: Python, SQL, java

Frameworks & Libraries: Pandas, NumPy, Talend, Matplotlib, scikit-learn

Databases: PostgreSQL, MySQL, SQL Server

Tools & Visualization: Power BI, Tableau, Excel

EXPERIENCE

Axiora Global Solutions

Nov 2023 – Present

Data Analyst

Hyderabad, India

- * Developed interactive Power BI dashboards and reports using KPIs, slicers, drill-through, bookmarks, and custom visualizations to support business decision-making.
- * Created advanced DAX measures and calculations including YTD, MTD, Sales Growth, Profit Margin, Running Totals, Variance Analysis, and Time Intelligence functions.
- * Wrote optimized SQL queries to extract, transform, and analyze data from multiple relational databases using Joins, CTEs, Subqueries, Views, and Stored Procedures.
- * Built and maintained efficient data models in Power BI by implementing Star Schema design and creating relationships between fact and dimension tables.
- * Optimised SQL queries and Power BI reports to improve data refresh performance and reduce report loading time. Collaborated with business stakeholders to gather reporting requirements, define KPIs, and translate business needs into analytical solutions.
- * Developed reusable DAX measures and dynamic reports that enabled self-service analytics for management and business users. Created weekly, monthly, and quarterly business performance reports to monitor sales, operational, and key business metrics. Published and maintained reports in Power BI Service, including scheduled refreshes, workspace management, and report deployment.

Wipro Technologies

Aug 2022 – Oct 2023

Dot Net Developer Intern

Hyderabad, India

- * Developed and optimized data-driven web applications using ASP.NET, C and SQL Server, improving application performance and reliability. Strengthened analytical and problem-solving skills by contributing to key backend development tasks.
- * Assisted in designing, debugging, and testing software modules, ensuring smooth functionality across project components. Played a key role in identifying bugs early and contributing to timely project delivery.
- * Worked with HTML, CSS, and JavaScript to enhance UI/UX for internal applications. Improved user workflow and accessibility by implementing responsive and intuitive front-end features

PROJECTS

Education & Placement Analytics Dashboard | SQL & Power BI

Dec 2024 – jun 2026

- * Designed a dual-view analytics dashboard to monitor placement readiness, student performance, and faculty effectiveness across 3,000+ students, 8 institutions, and 90 courses.
- * Developed interactive Power BI reports using KPIs, slicers, drill-through, bookmarks, and DAX measures to track the student journey from Eligible → Interview Ready → Placed
- * Performed SQL-based data extraction and transformation to analyze placement trends, course completion rates, attendance, and student satisfaction metrics.
- * Delivered actionable insights on institution benchmarking, faculty evaluation, learning-style segmentation, and placement performance through interactive dashboards

HR & Workforce Intelligence Dashboard | Excel, SQL & Power BI

Nov 2023 – Dec 2024

- * Built a workforce analytics dashboard covering 8,000+ employees across 48K companies to analyze employee distribution, salary trends, and organizational hierarchy.
- * Utilized SQL queries and Power BI data modeling techniques to prepare, validate, and analyze workforce and compensation data.
- * Developed interactive reports for salary benchmarking, experience analysis, qualification-based insights, and employer comparisons using DAX and custom KPIs. Provided business insights on workforce trends, salary distribution, company performance, and geographical employee analysis through dynamic visualizations.

EDUCATION

Guru Nanak Institute Of Technology

Bachelor Of Technology

Hyderabad, TS

Aug 2018 – oct 2022
